IWK ECO PARK @ PANTAI DALAM: A SPORTS & RECREATIONAL HUB LAUNCHED FOR LOCAL COMMUNITY AFTER REFURBISHMENT

KUALA LUMPUR: National sewerage company, Indah Water Konsortium (IWK) Sdn Bhd today launched its sports and recreational park, IWK Eco Park @ Pantai Dalam, located approximatively 10 kilometers from Kuala Lumpur city center.

IWK Eco Park @ Pantai Dalam houses a multipurpose community hall for celebrations, ceremonies and corporate events, functions rooms, areas for picnics and BBQ, a jogging and cycling track, as well as various sporting facilities including badminton courts, futsal, tennis, sepak takraw and more.

Spanning an area of 12 hectares, IWK Eco Park @ Pantai Dalam combines both landscape and engineering, with all sorts of facilities and splashes of lush greeneries, built on top of the most modern and largest sewage treatment plant (STP) in the Asia Pacific region, IWK's Pantai 2 Regional Sewage Treatment plant.

IWK Eco Park @ Pantai Dalam launch event was officiated by YB Fahmi Fadzil, Minister of Communications and Digital, representing as Member of Parliament for Lembah Pantai.

"The park has often been a choice for me to carry out any social activities with the people here since I held the trust as a Member of Parliament in 2018. This space is unique for all sorts of activities, and I would like to congratulate IWK on all the initiatives that have been and will be carried out here at IWK Eco Park @ Pantai Dalam", said YB Fahmi Fadzil.

According to Narendran Maniam, Chief Executive Officer of IWK: "This launch marks an important milestone as we come to a close in all of our refurbishment efforts to ensure a quality experience for visitors to the park. We are excited to share that the park is fully opened to the public to enjoy all sorts of indoor and outdoor activities."

During the handover of Pantai 2 Regional Sewage Treatment plant together with this park to IWK in 2017, Kuala Lumpur City Hall (DBKL) was tasked to operate and manage the Eco Park, while IWK focused on the operations and maintenance of the plant. DBKL then handed over the management of Eco Park to IWK in October 2020, but it was during the pandemic and the park had to be closed.

Whilst remaining closed, IWK Eco Park @ Pantai Dalam was still able to contribute to helping the Government especially the Ministry of Health, by becoming a screening center and a COVID-19 vaccine center accessible to the public living nearby. The multipurpose hall was also chosen by the Election Commission as one of the voting centers for the 2022 General Election.

"IWK Eco Park @ Pantai Dalam is set to create spaces for the general public, community members, corporates or professionals to connect, exchange and interact with one another and with nature. We are also committed to the Malaysia Madani concept and have allocated a business site at the park to provide opportunities for small traders to do business here", added Narendran Maniam.
